1. In the print the bird is having lot of 'cream and white color', therefore in many pieces the boundaries are covered with **Yellow Color**. Before doing assembly you are required to cut and remove this yellow color portion.
2. **Inner tabs** = they join within the same piece. **External Tabs** = (having a black dot) they join one piece with other piece.
3. Complete all inner tabs of all the items. In case of 'Body' glue 'Body-1' with 'Body-2' as per Fig-3.
4. Complete the 'Beak' by joining Inner Tabs and line '5' with '5'. Fix it with 'Head' Fig-1 & Fig-2.
5. **Optional:-** Take the 'Eyes' provided and make a cut along with black line. Re-join it by overlapping and applying some glue (to give it raised look). Fix these eyes over the eyes of head.
6. Glue back to back Tail with Tail Inner. Join 'Body' with 'LW' & 'RW' through point '1','2','3' & '4' (Fig-4).
7. Now fix 'Head' and 'Body' (Fig – 5). Fix 'Tail' with 'Body' and then insert 'Tail Fin' in Tail (Fig-6)
8. Take 'C' & 'C1' and slightly bend the edged. Complete Claws 'C' & 'C1' by joining their tips as per 'Blue Arrow'. Trim any mismatch portion and touch up with black color.
9. Complete all Inner Tabs of 'LC'. Take two thin wooden sticks of size approx. 15 cm. Wrap it with rough paper and insert through 'LC' (Fig-7).
10. Make 'Stand' as per Fig-10. Make a small hole on the 'Body' and 'Stand'. Insert the wooden stick (with 'LC') into the hole of Body (the green dot of 'LC' should be towards 'Tail'). Now just insert this into 'Stand' to estimate the size of wooden stick required. Cut the extra length of wooden stick. Now wrap the 'Leg' on the wooden stick.
11. Apply some glue on the end of wooden stick and insert it into stand. (Fig-8). Now apply some glue on 'C' and 'C1' and fix it with 'Leg' (Fig-9)
